Owing to over-crowding and bad ventilation, the air of the schoolroom is often close and impure, and teachers and pupils frequently suffer from lung and throat troubles. To all such we would say, try Chamberlain's Cough Remedy. For coughs, colds, weak lungs and bronchial troubles no other remedy can compare with it. Says A. C. Freed, Superintendent of Schools, Prairie Depot, Ohio: "Having some knowledge of the efficacy of Chamberlain's Cough Remedy, I have no hesitation in recommending it to all who suffer from coughs, lung troubles, etc." For sale by Brown & McQuiston.

Every one who is opposed to the annexation of Cuba and the Philippine Islands are put down by certain parties as "opposed to expansion." While we have some doubt about the policy of spreading out too much we are not opposed to the annexation of Cuba the Philippines, Porto Rico, the Koonernek Islands, Africa, Asia, Europe, Strup and all the rest of this planet, as well as the greater part of Jupiter, Mars, Venus, Saturn, Neptune and Purgatory, provided, however, that the inhabitants seek admission into our Union; but we are opposed to lying and deception. This government went into war with Spain upon the pretext of helping the Cubans to gain their liberty, and the insurgents in the Philippines were assured that they should have self government. It is not right to break faith with them. Let them have their countries to rule as they please, and then, if they knock for admission into the Union, upon their own motion, open the door and let them into the fold.—Chronicle Enterprise.
